DETAILED ACTION

1. Applicant's February 21, 2006 communication is convincing. The previous rejection is withdrawn.

Claim Rejections - 35 USC § 103

2. Claims 1-13 and 30-32 are rejected under 35 U.S.C. 103(a) as being unpatentable over Paiz, US 7,058,601.

Paiz discloses a computer network, e.g. 10, 20, where advertising messages are directed to a computer terminal, e.g. 28, after a triggering event, e.g. col. 5. Paiz does not disclose the term reply. However, Paiz discloses that a subscriber identifies himself, e.g. cols. 3-4, lines 64-11, and receiving instructions. It is further noted that the broad concept of providing a reply to an advertising authorization request from a entity and then receiving at least one advertisement in response to the reply has been common knowledge in the advertising art. Official Notice of such is taken. To have provided a reply to an advertising authorization request from a subscriber terminal for Paiz would have been obvious to one of ordinary skill in the art. The motivation would have been to incorporate common knowledge business practice with the Paiz disclosure.

3. Further pertinent references of interest discloses various aspects of Applicant's invention are noted on the attached PTO-892.
